A Great Nation-Wide Fencing Service

Cyclone Nation-wide Fencing Service offers:

(.

00

Service—of Cyclone engineers to study your fencing requirements, make recommendations and submit estimates of cost. No obligation—

Service—of one of the 100 expert erection crews which are constantly at work installing Cyclone Fence. Or—

Service-of an erection superintendent to direct workers in installing Cyclone Fence.

Cyclone Service is available everywhere and to everyone. Covers every phase of playground fencing. Provides for the prompt and correct installation of Cyclone Chain Link or Wrought Iron Fence.

Local Recreation Progress in 1924

New play areas opened in 1924 for the first time	635	
Total number of separate play spaces reported	8,115	
Indoor recreation centers	1,763	
Ball fields	2,522	
Tennis Courts	4,865	
Swimming pools	626	
Bathing beaches	293	
Summer camps under recreation systems	123	
Municipal golf courses	131	
Skating places	1,076	
Number of cities in which land or property was donated for recr	reation 65	
Total expenditure reported for public recreation in 1924	\$20,052,558	
Total number play leaders working without pay	4,444	
Total number of workers employed	15,871	
Cities reporting play areas	711	
Approximate number cities and towns over 8,000 population reporting a single playground	not 400	

Since the friends of the movement organized, the average number of cities starting playgrounds each two year period has been greater than for the entire twenty year period without national organization.

The Service of the Playground and Recreation Association of America in 1924

318 cities were given substantial service, upon request, through personal visits of field workers.

255 cities used the special service of the Association directed to finding and training local recreation workers.

19,000 requests for help were cared for by the Correspondence and Consultation Service.

4,400 individuals received each month The Playground magazine, the tool kit of the recreation worker.

2,400 communities were covered in securing a comprehensive Year Book of recreation developments throughout the country.

195 cities in 35 states were represented by 600 delegates at the Eleventh Annual Recreation Congress held at Atlantic City.

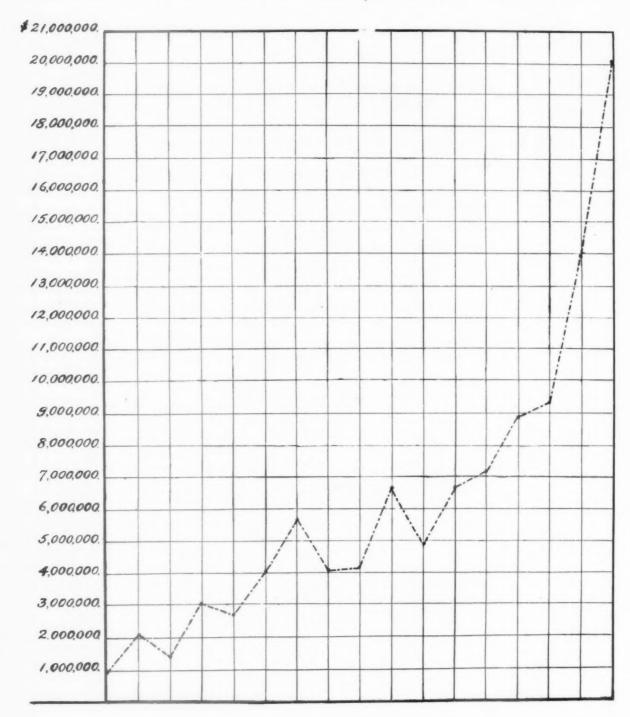

391 cities and twelve state departments of physical education used the Association's physical fitness tests for boys and girls.

61 cities used the lantern slides, cuts, photographs and other special material prepared by the Association for use in local educational and financial campaigns.

40 cities received personal service and 90 additional cities received help by correspondence in meeting the play and recreation problems of their colored citizens.

If we are ready to help adequately those seeking knowledge and expert leadership, practically every child in an American community of 8,000 population can live in a town or city which has playgrounds before January 1, 1930.

Growth in Expenditures for Public Recreation 1907-1924

1907 1908 1909 1910 1911 1912 1913 1915 1916 1917 1918 1818 1920 1921 1922 1923 1924

Community Recreation Leadership in 711 Cities

Seven hundred and eleven cities have reported recreation programs under leadership for 1924, the greatest number ever. The number of paid leaders increased from 12,282 in 1923 to 15,871 in 1924. Of this number 2,783 were employed the year round in 300 cities. In addition 4,444 volunteer leaders are reported.

The training of leaders achieved a significant growth last year. One hundred seven cities report training institutes for paid workers; 82 cities report training institutes for volunteers. The enrolment of workers in the institutes of 82 cities totaled 3,094; the volunteer enrolment in 72 cities was 2,541.

The many workers and friends of the recreation movement may well feel happy over the splendid growth of last year, and particularly over the increase in training programs which will bring about higher standards of recreation work.

Employed Workers

During 1924, 15,871 workers were employed to give leadership for community recreation activities. This is a substantial increase over the previous year, as the following comparison shows:

	1923	1924
Cities reporting	660	711
Men workers employed	5,123	6,577
Women workers employed	7,159	9,294
Total	12,282	15,871
Cities reporting workers employed the year round	281	300
Total number of workers employed the year round	1,925	2,783

Play Areas Under Paid Leadership

In the 1924 survey of the recreation field an effort was made to secure a more detailed report of play areas under leadership. The reports from the 711 cities appearing in the table on page 34 show a total of 8,115 separate play areas. An analysis of the length of term of these areas follows:

			Cities Reporting	No. of Areas
Areas	open	the year round	530	1,701
44	4.6	summer months	633	3,626
66	6.6	other seasons	316	2,389
66	66	for the first time in 1924	231	635

The detailed reports of separate play areas have been summarized and are classified as follows:

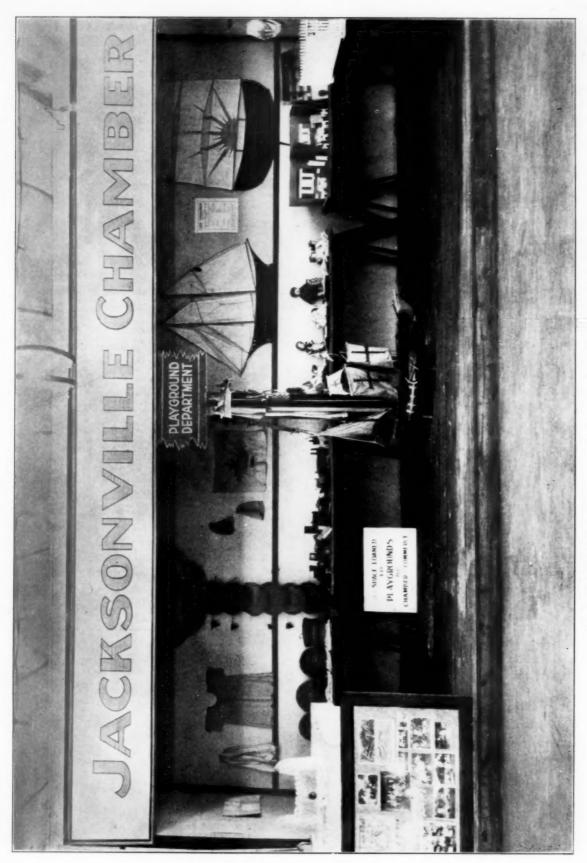

Outdoor Playgrounds

A summary of the reports on outdoor playgrounds follows:

Cities reporting		652 5,006
Open the year round (145 cities)	862	
Open during the summer months (567 cities)	3,443	
Open other seasons (90 cities)	852	

Total average daily attendance of participants at outdoor playgrounds (471 cities) Total average daily attendance of spectators at outdoor playgrounds (196 cities)	881,500
Total acreage of outdoor playgrounds (364 cities)	116,643 9,580
Total valuation of outdoor playgrounds (179 cities)\$	
Total number of outdoor playgrounds open in 1924 for the first time (168 cities)	444
In the total of 5,006 playgrounds are included 133 playgrounds maintained for the children. A separate report of these centers follows:	use of colored
Cities reporting	58
Total number of playgrounds for colored children	133
Open the year round (16 cities) 25 " summer months (41 cities) 92 " other seasons (5 cities) 16

Bathing Beaches

One hundred fifty-four cities report a total of 293 bathing beaches. Of this number 5 cities report bathing beaches open for the first time in 1924. The total average daily attendance at bathing beaches, reported by 54 cities, is 57,551.

Play Streets

Streets closed for play under leadership are reported by 35 cities. Ten of this number report a total average daily attendance of 10,926.

Total number of streets closed for play under leadership		117
Year round (3 cities)	17	
Summer months (8 cities)	42	
Other seasons (21 cities)	53	
Play streets open for first time in 1924 (2 cities)		14

Municipal Golf Courses

Although the number of cities reporting the maintenance of municipal golf courses shows an increase over the previous year, the information on valuation, acreage and attendance is incomplete, many cities failing to report on these items. The reports are summarized as follows:

Cities reporting municipal golf courses	95
Total number of courses	131
Total average daily attendance (22 cities)	8,713
Total valuation of property (17 cities)	\$3,128,576.00
Total acreage (31 cities)	4,752
Courses open in 1924 for the first time (5 cities)	6

The cities reported as having municipal golf courses are:

California	Indiana
Long Beach	East Chicago
Los Angeles	Evansville
Porterville	Indianapolis
Oakland	Richmond
Sacramento	South Bend
San Diego	Terre Haute
San Francisco Stockton Vallejo	Iowa Cedar Falls Davenport
Colorado	Waterloo

Summer Camps

Eighty-three of the cities appearing in the Year Book table report a total of 123 summer camps maintained as a part of the recreation program. The total average daily attendance reported by 28 of these cities is 5,034. Twenty-two cities report a total acreage of 1,121.5 for camp property. A total property valuation of \$87,800.00 is reported by 11 cities. Two cities report summer camps open for the first time in 1924.

Other Play Areas

In addition to the areas in the foregoing classification a total of 394 miscellaneous play centers is reported by 41 cities. It has not been possible to classify these, since many of the cities simply report them as "other areas."

Ninety-three of these areas were open the year round, 141 during the summer months, and 162 at other seasons.

Separate Play Facilities

The following classification indicates the different types of play facilities available in the 711 cities sending reports. Many of these facilities are a part of the larger play areas already listed:

	Cities Reporting	Total Number	Number open in 1924 for first time
Athletic Fields	439	1,330	132
Tennis Courts	410	4,865	359
Quoit Courts	247	2,327	281

6.6	6.6	6.0	+6	6.6	state, municipal and private funds	1

Expenditures

The annual total expenditure for public recreation throughout the country again shows a satisfactory increase. The total amount reported for 1924 is \$20,052,558.02. A comparison with the reports of the previous year follows: (The figures in italics indicate the number of cities reporting in each case.)

Expended for	1923	1924
Land, Buildings, Permanent Equipment\$	4,114,249.75 (239)	\$ 8,885,587.85 (258)
Upkeep, Supplies and Incidentals	1,893,920.28 (466)	3,276,947.37 (478)
Salaries	4,531,380.05 (533)	5,453,627.17 (557)
Total expenditure	13,943,054.43 (616)	20,052,558.02 (662)

Bond Issues

Twenty-eight cities report a total of \$11,801,817.54, an increase of more than a million dollars over 1923. The cities are listed as follows:

City	Amount of Bond Issue
Monrovia, Cal	\$ 80,000.00
Oakland, Cal	50,000.00
Stockton, Cal	137,000.00
Lake Wales, Fla	195,000.00

Harmon Foundation Gifts

Fifty-four communities received gifts of land under the terms of a special offer made by the Harmon Foundation in 1924. The conditions of the offer were developed with a view toward immediate and future need, the assurance of local cooperation in development, maintenance and use, and the educational value of the principles on which the Harmon Foundation is working; that the "gift of land is the gift eternal."

Communities taking advantage of the offer must have more than 3,000 population, and have advanced in growth at least 30 per cent. since 1900. The maximum amount given to any single locality was \$2,000. The land, not to cost more than \$1,000 an acre, the minimum tract to include two acres level and easily accessible, must be used in perpetuity for playgrounds or other recreational purposes.

The communities receiving gifts of land under the 1924 offer are:

Alabama Mobile (Colored) Tuscaloosa	Louisiana Alexandria DeRidder	<i>Oklahoma</i> Mangum Okmulgee
Arkansas Paragould Russellville Stuttgart	Houma Maryland Salisbury Michigan	Oregon Bend Pennsylvania Scranton
California Ocean Beach Tracy	Muskegon Sturgis St. Joseph	Stroudsburg South Carolina Dillon
Colorado Alamosa Florida Fort Lauderdale	Minnesota Pipestone West St. Paul Worthington	Marion Orangeburg (Colored) Tennessee Elizabethton
Georgia Canton	Missouri Chaffee	Martin Rockwood
Idaho Twin Falls	Nebraska Kearney	Texas Fort Worth (Colored)
Illinois Harvey	New Hampshire Claremont	San Antonio Stamford
Indiana Bicknell	New York Herkimer	Utah Provo
Kansas Coffeyville (Colored) Neodesha	North Dakota Williston Ohio	Vermont Windsor Washington
Kentucky Madisonville Mayfield	Bucyrus Fremont Sidney Wapakoneta	Hillyard West Virginia Point Pleasant

Volunteer Workers

In 240 cities the help of trained volunteers was enlisted in carrying out the community recreation program. The total number of volunteer leaders reported is 4,444. Of this number 1,509 are men and 2,935 women.

Training Classes for Workers

A large increase is observed in the number of cities having training classes for employed workers. The total is 107, as compared with 79 cities reporting in 1923. The total enrolment of students in these classes, reported by 82 cities, is 3,904.

Training classes for volunteers assisting in the community recreation program are reported by 82 cities. The total enrolment of volunteer students reported by 72 cities is 2,541.

Civil Service Examinations

In fifty-five cities civil service examinations are a requirement in filling recreation positions.

School Buildings as Evening Recreation Centers

Two hundred and nineteen cities report a total of 1,389 school buildings used as evening recreation centers. This is an increase over 1923, when the number of cities reporting was 196, and the total number of buildings, 1,127.

Acreage of School and Park Playgrounds

An analysis of the cities reporting on the acreage of school and park playgrounds yields the following:

	No. of Cities Reporting	Total Acreage
School Playgrounds	. 303	5,375
Park Playgrounds		9,390

League Activities

The organization of leagues in connection with community recreation activities is reported as follows: (The figures in italics indicate the number of cities reporting for each item.)

	Lec	igues	Tea	ms	Players	ç	Spectators Per Season

A Great Cooperative Educational Movement

With 711 cities maintaining playgrounds, with expenditures of more than \$20,000,000 in a single year, with nearly 16,000 employed local workers, with thousands of volunteer workers, the need of a national association through which cities and workers can exchange experiences and unite to help each other is evident to all. The expenditures of the P. R. A. A. last year were 1½ per cent. of the total local expenditures.

Hayden Meadow Playground, a project now being developed at Marlborough, Massachusetts. This area was the farm of Artemas Ward in Revolutionary days. His descendants have recently offered the city a gate to be constructed at the main entrance to the playground

Why Not?

One hundred and fifty millions of dollars were set aside in 1924 for endowing public service. How generously American men and women have dedicated private wealth to meet public needs!

The greater part of the income from these gifts is for education and research; much is for hospital and other institutional service. Important fields of social service are yet without endowment; without such assurance of permanency as is essential to effective statesmanlike planning.

The leisure time problem of America is of outstanding and growing importance. It must be solved. All authorities agree as to the constructive value of play and recreation—not only in lessening idleness, and waste of time—but also in preventing and curing delinquency and crime.

Play and recreation build health and nerve stamina, serve as an antidote for personal restlessness and act as a unifying influence in community life. The high grade stimulus of clean play can be substituted for the low grade stimulus of vice.

President Coolidge recently said: "I want to see all Americans have a reasonable amount of leisure, then I want to see them educated to use such leisure for their own enjoyment and betterment."

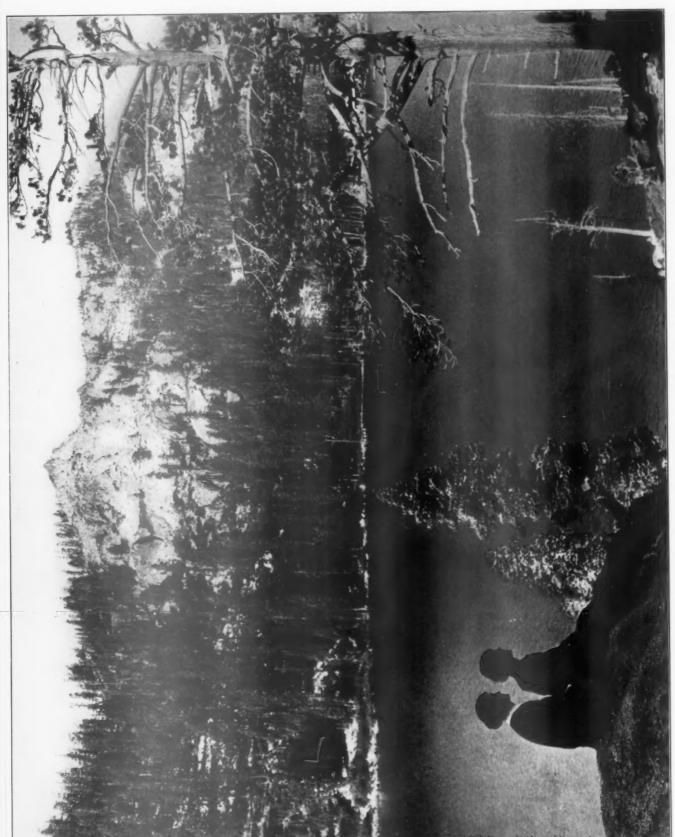

This educational program is under way.

A long time, continuous, difficult task is ahead. It can be carried on only to the extent to which enlightened public opinion makes funds permanently available for this purpose. There are encouraging indications that an endowment will be made available.

Six trust funds of from \$500 to \$25,000, totalling \$47,000, have already been established. An insurance policy of \$50,000 taken out in the name of the Playground and Recreation Association of America has just recently been reported. Word has come that a number of legacies will later be received by the Association.

Special trust funds provided for a part of the program or a large endowment for the work as a whole—each means an increase in human happiness, each means making life more worth living. The Board of Directors of the Playground and Recreation Association of America believes that the income of a ten million dollar endowment can be used to advantage in this great movement. One man or woman or many individuals contributing together have an opportunity to make an outstanding contribution to American life through the centuries to come.

Why not endow the leisure time movement now?

out the lofty peaks of the Sterras is the Municipal Camp maintained by the Sacramento Recreation Department

Notes from the Recreation Field

Spreading the Movement.-Mr. Leo. J. Buettner, Secretary of the Municipal Recreation Commission of Johnstown, Pennsylvania, writes of an interesting instance showing how the work which recreation executives and officials are constantly doing in outlying communities bears abundant fruit. A short time after Mr. Buettner had started harmonica playing in Johnstown, a Mrs. Simpson came to his office one afternoon to secure information on how to go about the organization of harmonica bands. Recently she returned to Mr. Buettner's office and told him that 700 boys and girls in Patton, Carrolltown and Bakertown were playing mouth-organs, the schools taking time during school hours to teach the children how to play harmonicas. These three little towns are in the northern part of Cambria County and have a combined population of less than 5,600, according to the 1920 census. Patton has a local newspaper which is not only publishing articles about the movement but is printing music and instructions for playing selections.

An Historical Pageant for Children.— There is a suggestion for other state groups in the recent publication by the Extension Division of the University of North Carolina of an historical pageant entitled Children of Old Carolina, written by Ethel Rockwell of the Bureau of Community Drama for presentation by children. The children sing the songs of the period, dance the dances, play the folk games, work at typical tasks and talk about the great events of the day as they would have seen them through their childish eyes and interpreted them. The main attempt has been to make beautiful, colorful, active scenes that have the effect of living moving pictures.

A copy of the pageant may be secured from the University Extension Division, Chapel Hill, for 50 cents. Upon the payment of a royalty of \$25.00 communities outside of North Carolina may substitute their own state heroes and make such other changes as they desire.

Athletics as a Character Builder.—Speaking at the luncheon in connection with the twelfth annual celebration of Alumni University Day at Yale University on February 23, Professor Clar-

What kind of costumes do you need for your Playground Pageant?

No MATTER what your needs, you will find real help in Dennison's new instruction book, "How to Make Paper Costumes"—32 pages full of illustrations, directions and suggestions for making costumes of

Dennison Crepe

This material is ideal for costumes. With it you can obtain wonderful color effects — and unusual designs. It is inexpensive and so easy to handle that the youngsters can help with their own costumes.

The possibilities are limitless—with 35 plain colors and 72 printed designs of crepe papers from which to choose.

Stationers, department stores and druggists sell Dennison Crepe papers and also the instruction book, "How to Make Paper Costumes."

Dennison Instructors and Service Bureaus work with Playground Supervisors. They can be of much assistance in planning costumes for pageants and in organizing classes in the various fascinating Dennison crafts.

Use this coupon and mail today.

KELLOGG SCHOOL OF PHYSICAL

EDUCATION

Broad field for young women, offering attractive positions. Qualified directors of physical training in big demand. Three-year diploma course and four-year B. S. course, both including summer course in camp activities, with training in all forms of physical exercise, recreation and health education. School affiliated with famous Battle Creek Sanitarium—superb equipment and faculty of specialists. Excellent opportunity for individual physical development For illustrated catalogue, address Registrar.

KELLOGG SCHOOL OF PHYSICAL EDUCATION

Battle Creek College

Box 255

Battle Creek, Michigan

ence W. Mendell, '04, Chairman of the Board of Control of the Athletic Association, said:

"I conceive that the object of an undergraduate college education is, in the broadest sense, the development of character.

"The college cannot succeed solely through the theoretical side of the education through the class-room instruction. It must have an educational laboratory in which theories and results may be tested. This is the real educational function of athletics. In competitive sport, judgment under stress, quick thinking, self-confidence against odds, co-operative action, sportsmanlike respect for the rights of the other man and for the rules of the game—all of these are tested out under expert observation. The competitions of life are different and often more severe and the penalties for failure more inescapable but in the laboratory of sport the demonstrations are clear and the lessons are lasting.

"If competitive sports are the laboratory of character, then it must be extended to as nearly 100 per cent. of our undergraduates as possible. It must be under the supervision of the finest staff of men that we can gather together. It must give something of the variety of opportunity and severity of competition that the participants will meet in after life."

Omaha's Volley Ball Tournament.-Mr. Ira A. Jones, Director of Athletics, Board of Education of Omaha, reports that 960 girls played volley ball every Saturday morning during the winter in five leagues conducted for grade school girls. High school girls acted as officials. On February 14 a round robin tournament was played by the winners of each league, the team winning all its games being declared city champions. After the game all the girls who had taken part in the tournament were given a banquet in the Technical High School cafeteria. The dinner was served cafeteria style at twenty-five cents per person. The tables were decorated by the schools and there was much friendly rivalry as to who could claim the best decorated and the most original tables, the best school song and the most original song.

The banquet was attended by the women members of the Board of Education. The Assistant Superintendent of Schools, a woman, made the only speech, and each school sang its school song. The dinner took place at five o'clock, and the girls left for their homes at seven.

The PEAK-LOAD of PLAY

Like transit companies and power plants, playgrounds must be prepared to take care of the "peak-load"—the hours when apparatus is jammed—when clamoring youngsters pile on swings, ladders or Giant Stride. Heedless of their own safety, these reckless care-free little-folks must be protected. And there lies your responsibility as purchaser of playground apparatus.

MEDART

PLAYGROUND EQUIPMENT

Over 50 years of experience has enabled Medart engineers to design playground apparatus which will yield a high margin of Safety during "peak-hours." It is but natural that the qualities of Durability and Economy should follow that of Safety.

Catalog M-33 contains much valuable information on playgrounds and equipment. May we send it?

The Child's Approach to Music Study

To win the enthusiastic interest of the boy or girl at the very outset has always been one of the biggest problems in music teaching. Our leading educators agree, today, that this can be best accomplished by enabling the youngsters to make music in their own ways, by the use of the most universal of all musical instruments—the Harmonica. After they have become proficient on this instrument they will take naturally to the study of the piano, the violin and other musical instruments. A Hohner Harmonica for the boy or girl will help to solve the problem. With the newly perfected Chromatic Harmonica they can play the complete chromatic scale. It is not a toy, but a real musical instrument which will promote the child's self expression in music.

These instruments are endorsed by such prominent group educators as

Peter W. Dykema, Prof. of Music Education, Columbia University, New York City.

Dorothy Enderis, Asst. Supt., Milwaukee Schools. W. A. Gore, Supt. Schools, Webster Grove, Mo.

Edward Randall Maguire, Principal, Junior High School 61, New York City. Charles H. English, Supervisor, Bureau of Recreation, Chicago, Illinois. G. Ovedia Jacobs, Principal Nixon School, Chicago, Illinois.

Write today to M. Hohner, Inc., Dept. 209, 114 East 16th St., N. Y. C., for a FREE BOOK OF IN-STRUCTION on How to Play the Harmonica and particulars as to its application to School work.

Ivory Soap in the Art World.—To concentrate the attention of the public on a novel use for Ivory soap a nation-wide competition in sculpture was recently held by the Art Center of New York City. The Procter and Gamble Company offered prizes of \$250, \$150 and \$100 for the best small sculpture carved in white soap. More than 600 entries were made in the contest and some beautiful exhibits were shown.

The use of soap in this way is a valuable discovery to sculptors who wish to get away from the modelling habit to develop skill in carving, and it is also a valuable medium for those students who have no access to marble or who have not the strength to work in marble. There is an added and important advantage in the fact that this discovery will have influence on the development of the artistic side of children.

A number of the best sculptures submitted for the contest will be sent on tour to museums in some of the leading cities of the country.

An interesting suggestion for soap carving is found in *Playground Handicraft*, a suggestive little booklet compiled by Gladys Cameron Britten and published by the Westchester County, New York, Recreation Commission:

"Soap carving is simple work and is intensely interesting to the average child. It answers more readily to the pressure of the knife and because it is easier to work with than wood, attracts the beginner. A bar of ivory soap will make a most perfect Eastern house and has been used with great success in Sunday school classes. One need not be an artist, though if a child has any ability along artistic lines, carving heads from soap is constructive and interesting play. A bar of soap, a jack-knife and the American boy's insatiable desire to carve something somewhere will account

Action!!!

Activity!!!

The child demands action—something that moves—something to hold onto—something to push—something to ride upon. The "Merry-Whirl" Swing provides all of these for children, and their joy is complete when riding on it or holding onto the railing and running around the platform, jumping on and off as the swing whirls.

The "Merry-Whirl" Swing is the bright spot in playgrounds. It fills the need of a long looked for pleasure device that combines all the qualities of a perfect plaything, by giving exercise to mind, muscle, and imagination, combined with fresh air and sunshine.

The "Merry-Whirl" Swing solves a big part of the problem of the child's entertainment and development. Wherever installed, it instantly becomes the favorite of children who daily enjoy playing various games their imagination inspires.

The "Merry-Whirl" Swing represents an advance in playground equipment that is as logical as it is needed. Filling the demand for a perfect toy, as it may be termed, it takes its place as a standard piece of public playground apparatus; sturdy in construction, easily installed, and easily dismantled for storage in winter, if desired.

CLAYTON F. SUMMY CO., Publishers 429 South Wabash Ave., Chicago, Ill.

Send for our Catalog of School Song Books, Operettas and Entertainments for many hours on the playground. Ducks and boats and fishes are especially well adapted for soap carving, as they are not difficult to shape and may be used in the water especially if they are cut in floating soap."

A Report from Indianapolis.—A summary of the activities of the Indianapolis, Indiana, Park Board for the year 1924 shows that the work of the Park Department has not only kept pace with the progress and accomplishments of former years but has greatly increased its efficiency and service to the general public. Thousands of men, women and children of all classes have been served during the season in golf, baseball, football, tennis, horse shoe pitching, roque, dramatic performances in the municipal theaters, and in musical events. Camp Samuel Lewis Shank, operated by the United States Naval authorities at Riverside Park, with the cooperation of the Park Department was highly successful. The Tourist Camp also furnished wholesome hospitality and enjoyment to thousands of tourist campers. The importance of the activities of these units of recreation and diversion cannot be overestimated in a city the size of Indianapolis, the capital of the

Children Play Better on a hard, but resilient, dustless surface.

Here is a new treatment for surfacing playgrounds which makes a hard, durable, dustless, yet resilient footing for the children.

Solvay Calcium Chloride is a clean, white, flaky chemical which readily dissolves when exposed to air, and quickly combines with the surface to which it is applied.

SOLVAY

Flake Calcium Chloride

"The Natural Dust Layer"

is odorless, harmless, will not track or stain the children's clothing or playthings.

Its germicidal property is a feature which has the strong endorsement of physicians and playground directors.

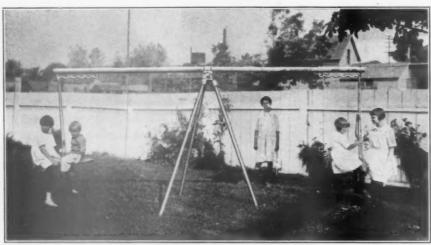

Solvay Flake Calcium Chloride is not only an excellent dust layer but at the same time positively kills all weeds. It is easy to handle and comes in a convenient size drum or 100 lb. bags. It may be applied by ordinary labor with hand shovels or the special Solvay Spreader, which does the work quickly and economically.

The new Solvay Illustrated Booklet will be sent free on request.

COSTUMING A PLAY

Inter-Theatre Arts Handbook

BY ELIZABETH B. GRIMBALL AND RHEA WELLS

A N invaluable book for producers and directors A in little theatre, community drama, educational dramatics and the recreation field.

It contains practical information and instruction about period costumes, their design and execution, the choice of materials, the color, lighting, dyeing and decorating of costumes.

The costume plates show the most distinct and characteristic changes in line and silhouette from the early Assyrian and Egyptian to the Civil War period. Each plate gives designs for the various social castes of the time, such as king, nobleman, middle class present. middle class, peasant.

Explicit directions are given of how to make each costume from the design, and what simple and inexpensive materials can be used to give the effect of richness and beauty. Directions are also given as to the making of jewelry, head dresses and foot

This is a book which will simplify the problems of costume.

The price, \$3.00.

THE CENTURY COMPANY 353 Fourth Ave., New York City

Did You Ever

have the THRILL of FLYING?

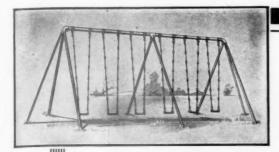

These children are getting wonderful EXERCISE and a SAFE THRILL.

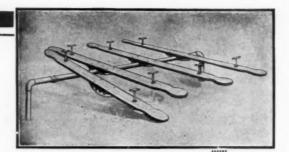

It gives them the sensation of flying through space by Revolving and Teeter-

This is only one of our many pieces of apparatus for the PLAYGROUND.

The Christmas season activities were varied. They included cooperation with the Indianapolis Choral Society of more than five hundred trained voices in the rendition of the Messiah at Cadle Tabernacle; the sponsoring of the Christmas carol movement with its hundreds of singers carrying in song and by musical instruments the message of Christmas cheer to all parts of the city. Hotels, hospitals, the sick in their homes, prisoners in the jails were visited by the singers, and brass quartets heralded Christmas morning with their stirring notes. Beautifully lighted Christmas trees were placed around the Soldiers' and Sailors' Monument, in University Park, and furnished to municipal centers, hospitals, schools, and engine houses.

The list of property acquisitions for the year is impressive. Among others are lots on the East and West sides of the James Whitcomb Riley homestead on Lockerbie Street for a small park and playground, furthering the dreams of the celebrated Hoosier poet for the happiness of children, and a swimming pool and lockers in Rhodius Park at a cost of \$85,000. In addition to these accomplishments the Park Department has received noteworthy gifts of playground sites of four lots from Kingham & Company, and a space on English

Be Sure of the Best— Specify "Paradise!"

When a manufacturer has exceptional facilities whereby he can produce the finest possible equipment and sell at a price almost equal to that of inferior equipment, he can assure the user the greatest dollar for dollar value obtainable in playground apparatus. Paradise Playground Equipment is all of this—in fact we can justly call it the "Ne Plus Ultra" of Playground Equipment.

The "Paradise" line is complete and includes Straight and Wave Slides, Swings, Teeter Boards, Merry-go-rounds, Teeter Ladders, Horizontal Ladders and Bars, Parallel Bars, Flying and Traveling Rings, Giant Strides, Ocean Waves, etc., and each and every one built to last a lifetime.

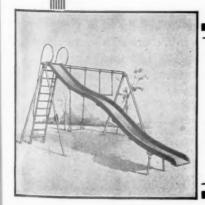

Our new beautiful catalog will interest you. Drop us a line and we shall be glad to send it at once.

THE NORMAL COURSE IN PLAY

Ready for distribution in May-The Normal Course in Play. Compiled by the Playground and Recreation Association of America for the use of colleges, normal schools, special recreation and physical education schools and other institutions in the training of workers.

The practical material contained in the book will make it of value to recreation departments and private groups holding institutes for the training of employed workers and volunteers

The material is presented under the following chapter headings:

I-The Community Recrea-Chapter tion Program

Chapter II-Nature and Function of Play

Chapter III—Leadership

Chapter IV—Facilities Chapter V-Organization and Administration

Chapter VI-Growth of the Community Recreation Movement

At the end of each chapter appear a bibliography and questions and suggestions for presenting the

Orders for books at \$2 each may be placed immediately with the Association.

Avenue from George T. Porter. This latter playground will be called Porter playground and will serve a neighborhood hitherto without such a space.

In carrying out its policy of extended service to the people the Park Department and its superintendent, Walter Jarvis, are giving realization to the recreational survey made in 1914 by Francis R. North, field secretary of the Playground and Recreation Association of America, a survey which seemed a far-flung ideal at that time.

The Play Movement in Paterson, New Jersey.—The growth of the recreation movement in Paterson during the past six years is graphically shown in a chart which appears in the annual report for 1924 submitted by Dr. L. R. Burnett, Superintendent of Recreation. A few of the figures follow: Probosed

meets and evening centers, one of the outstanding features of the program in Paterson is the Industrial Athletic Association formed in 1920, which continues to promote interfactory competition in several forms of athletics, with dances at evening centers and schools and group banquets. The Association is self-supporting.

The most striking example of the varied groups brought together in weekly contests under the auspices of the Association is afforded by the occupations of over six hundred men registered in seven bowling leagues. There are silk workers, dyers, salesmen, grocers, machinists, electricians, plumbers, city, county and federal employees, telephone, gas and insurance men, bakers, furniture, drygoods and news dealers, aeroplane, bridge and ice makers, laundry, oil, express and bank employees, together with many other lines represented.

Among the other activities of the Association are industrial baseball teams, basketball leagues, soccer and rugby teams.

Southern California's 1925 Eisteddfod.— From April 13 to 18 Ventura County, California, will hold its second annual Eisteddfod under the auspices of Community Service of Oxnard.

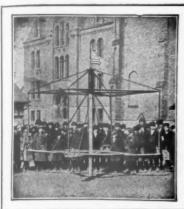

Music contests, according to the program which has just been issued, will play an important part in the plan. The sections on pianoforte, violin and string instruments, orchestras, vocal music, choral contests and bands, are creating widespread interest. The Drama Department will have sections on comedy, fantasy, pantomime, children's plays, readings and story dramatization. There will be an oratory section with impromptu speeches, prepared orations, high school declamations, recitations and debates.

The Art Department is arranging for exhibitions of paintings—oil, water color and pastel—and etchings. There will also be exhibits of photography, commercial art—lampshades, batik, posters, metal and leather work, bookbinding, wood carving, needle work and China painting.

The Department on Essays and Literature will receive essays on Americanism and on questions of national and local interest.

An interesting feature of the Eisteddfod will be group contests in folk dancing and in individual national dances.

Interest in the Eisteddfod has extended far beyond the limits of Ventura County and has spread all over Southern California.

Book Reviews

Funds and Friends by Tolman Lee Woman's Press, New York City Price \$1.50

A real contribution to the art of money raising, called by the author the "art of friendly finance," is made in this book which discusses in a most human, understanding way some of the problems and principles involved in financial campaigns or in raising funds.

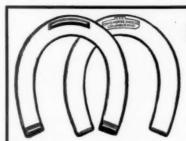

"The getting and giving of funds should be a friendly, natural transaction, based upon confidence and interest. Too often it is thought of as an attack and a surrender. That attitude puts both fear and edge into the manner of the asker and guardedness and reserve into the mind of the donor. People are not enemies to be conquered. They do not present walls of indifference to be battered down. They are persons like ourselves, often pressed for time, conservative by training, scrutinizing by habit."

With this as the attitude in mind, the money raiser should start on his task. Suggestions are offered under the following groupings: Making Your Fears Work for You; Words Fitly Spoken; Why People Give; No Man Liveth to Himself; Fact Information; Picturizing the Budget; Quality in Leadership; Keeping the Public Informed; Five Parts Human Nature.

Here is a book which every social and civic worker, paid or volunteer, should add to his library.

Community Singing and the Community Chorus—A Manual of Procedure—by Kenneth S. Clark Published by the National Bureau for the Advancement of Music, New York City

Helpful suggestions for organizing for community singing, for meeting exercises, for training new leaders and for selecting music will be found in this booklet, which also tells how to build on the interest in community singing to create a permanent community chorus.

RECREATIVE ATHLETICS

THE Playground and Recreation Association of America announces the publication in April of a revised and enlarged edition of Recreative Athletics. A number of additions have been made to the material which should add greatly to its value. Winter sports, water sports, track and field meets, methods of classification and scoring, group and mass athletics, physical fitness tests, problems of organization and administration, and many other phases of athletics are discussed in the book, which in its new and attractive form will appeal to recreation workers, physical directors, athletic coaches and all workers who are concerned with the recreational life of young people.

Price 60 cents

- B. Contains advance information regarding publicity, decorations, refreshments and equipment

MAY DAY FESTIVAL BOOK Published by the American Child Health Association, 370 Seventh Avenue, New York City

The American Child Health Association is planning this year to make May Day a day on which communities will concentrate their thought and attention on the protecting and safeguarding of child health and welfare. To bring this about the Association suggests that the ideal of joyous health be emphasized from the viewpoint of the child through outdoor festivals and parties. To help communities in arranging programs two booklets have been issued—May Day Plan Book, giving suggestions for organization and program planning, and the May Day Festival Book, containing information regarding pageants and festivals, old May Day customs and ceremonies, plays, parades and window displays. The price of each is \$.10.
